POVERTY** SINCE **93**

Muslim Hands
MAKE POVERTY HISTORY

Charity Reg. No. 1105056

Our Mission

“To be at the forefront in delivering relief from poverty, sickness and the provision of education worldwide. To provide an ethical service for the collection & distribution of funds in an effective, efficient, transparent and wholly accountable manner.”

We Believe

...that everyone, irrespective of race, colour or faith has the fundamental right to a life of dignity, free of poverty and oppression.

...that poverty can and must be eradicated, as it exists primarily due to the unfair distribution of resources.

... that by working together directly with poor communities we can bring about positive changes from within those communities.

...that literacy, education and job-skills training are fundamental to the development of needy communities and are the most effective tool for empowering the poor to break out of poverty.

...it is our duty to assist impoverished people in times of crisis, such as war or natural disaster.

...we are service providers to our donors who share our view that together, we can help the needy fight poverty.

For every **£1** you give to Muslim Hands...

funds

Not a Single Penny of Your Donation Spent on Salaries or Administration!

Thanks to your generous donations, Muslim Hands raised over **£4,551,519** last year. Some of the tax you had already paid on that money is claimed back by MH through the Gift Aid Scheme. Gift Aid returns totalled **£544,981** - which not only covers our staff salaries but **ALL other administration costs too.**

92p is used on
emergency aid and
development work

Where Your Money Goes

Make **ALL** your
donations **28% bigger**

*If you live
in the UK*

and usually pay tax, the Government allows us to claim it back on your donation, if you have made a Gift Aid Declaration.

Example: If you donate £100
Tax from Gift Aid is ~£28
Total donation now is £128

You only need to do this once - ALL your donations to MH can then be treated as Gift Aid donations. However, do tell us if you cease to be a UK tax payer.

MH Emergency Response Teams began aid distribution within 48 hours!

Tsunami Crisis

Trucks of food aid leave for Aceh, Indonesia

The earthquake and the consequent tsunami wave which struck South East Asia on December 26th, 2004 was the beginning of the world's worst natural disaster in living memory. Within hours over 300,000 people lost their lives and millions more had been made homeless.

MH allocated **£1.2 million** to help in the immediate aftermath. Teams from the UK office were dispatched to **Indonesia, India, Malaysia and Sri Lanka**. These included a qualified trauma surgeon and workers with experience from the recent Iraq and Sudan emergencies. Provision of shelter, safe water, medical aid and food parcels were a priority.

MH South East Asia (MHSEA) and partners responded immediately. Within 48 hours trucks filled with aid were headed to some of the worst hit regions and dozens of our volunteers were helping with the distribution of aid, treating the injured and burying the dead.

MHSEA office in Aceh is now overseeing the rebuilding of homes, schools and businesses in the area. In Sri Lanka, alongside rebuilding of homes MH has been providing poor fishermen with fishing boats so they can once again provide for themselves & their families.

Medical aid flown into Lam-No, Aceh

How your donations helped...

- 7 medical clinics and 2 mobile clinics set-up in Aceh and another in Sri Lanka.
- MH set-up temporary school and distributed food in **Andaman and Nicobar**.
- MH provided food and water to **160,000** refugees in Aceh and Medan.
- 150 orphans** sponsored in Indonesia and Sri Lanka.
- MH plans to build an **orphanage and six schools** in Aceh are underway.
- Construction of homes** began almost immediately in Sri Lanka, and is underway in Aceh, Indonesia.
- Water purification** plants installed around Aceh and surrounding area.
- MH South East Asia office opens in Aceh to sustain reconstruction efforts.

Sri Lankan fishermen launch new MH boat

Reconstruction of homes begins, Sri Lanka

Back to school in Trincomalee, Sri Lanka

Rebuilding shattered livelihoods in Aceh

Tsunami victims still need our help:

£45:

Family food parcel

£45:

Water storage Tank

£1500:

Water filtration unit

£2000:

Large fishing boat

£2000:

New family home

"After years of drought, desert locusts devastated the whole of Niger last year. **We MUST continue food aid till the next harvest in 2006...** People keep expressing their happiness on our arrival with everyone in the area we are working in saying that we are the first aid agency to bring them aid."

Ismail Abdullah (MH Sudan), Programme Director in Niger

Famine in Niger

MH working in Niamey, Touah, Maradi and Tillabrei

Niger is continuing to suffer its worst humanitarian crisis since 1984, with 3.5 million people facing starvation and children dying every day. Starving livestock, on which people in this region depend, are now also dying in large numbers. Niger's neighbour Mali is also suffering severe drought and locust invasions, again causing massive food shortages for 1.5 million people.

The sufferers in Niger need:

£45:

Family food parcel for one month

£45:

Goat or sheep for Sadaqah Sacrifice

£2000:

Digging of large community well

Medicines

for malaria & other waterborne diseases

MH Emergency Response Teams from Sudan and The Gambia were on the ground providing food and water to famine victims in Niamey, Touah, Maradi and Tillabrei (Filingue). Food aid must continue through Ramadan and beyond till the next harvest in January 2006. Hence MH has now established a more permanent presence in the area.

How your donations helped

■ **Food Aid:** MH teams have distributed hundreds of tonnes of rice and maize in the four provinces of Niamey, Touah, Maradi and Tillabrei (Filingue). The total number of the beneficiaries exceeded 40,000 persons.

■ **Food Nutrition Centres:** During Ramadan 2005 MH will be running nutritional feeding centres in the worst hit areas.

■ **Sadaqah Sacrifice:** MH teams supplied meat to 500 famine struck families on the outskirts of Niamey through the MH Sadaqah Sacrifice Service.

■ **Safe Water:** Initially four large ground wells have been dug in the Managa-Ize area, some 100 miles from the capital Niamey.

MH teams reach Niger with aid

Touah: Distribution of food

Niamey: Distribution of food

YOUR EMERGENCY RESPONSE CHECKLIST

Humanitarian emergencies such as the Tsunami, famines and wars occur all too frequently. That's why it's so important for us all to be prepared and able to respond effectively.

Here is how you can help...

A Keep yourself up-to-date with what's happening in the disaster area. Talk to MH about our response effort. Visit www.muslimhands.org. Being aware is the first step to helping.

B Start thinking about how you might help by fundraising. Begin contacting your mosque, workplace or university. **Coordinated fundraising works.**

C Request and distribute literature and updates from MH to friends and family. Word of mouth is the best.

D Return your own and other's donation(s) as soon as possible. MH does not hold large reserves of funds, and they need to be replenished quickly.

E Think about the medium to long term. Cameras soon leave disaster scenes but the work of MH carries on long after, e.g. rebuilding homes and schools.

F MH will always provide you with feedback and updates on our work. When you receive these be sure to publicise them amongst friends and family.

G Remember that MH Emergency Response Teams allow us to act quickly and decisively when the need arises only through the efforts of our donors and volunteers.

**TOGETHER
we can save
LIVES**

“Glory to Allah, Who did take His servant on a journey by night, from the Sacred Mosque (Al-Haram, Makkah) to the Farthest Mosque (Masjid Al-Aqsa, Jerusalem).” Quran 17:1

Hotspot: **Iraq**

“Nobody feels safe here, neither at home nor in the streets. Many highways and streets are closed off. Working in other cities of Iraq is still very difficult.” said Mr Al-Rawi, head of MH Iraq. Nevertheless MH has continued providing various orphanages and elderly care centres with food, fuel, staff salaries and in some cases refurbishment.

In February and May 2005, MH organised capacity building and management training programmes for Iraqi aid organisations and NGOs. The training courses held in Baghdad and Amman, Jordan were attended by twelve Iraqi organisations.

Baghdad: Water storage for homes

MH continues supporting orphanages in Iraq

How your donations helped...

- **10 orphanages and care homes** for the elderly and the disabled supported: Al Alwiya Orphanage for Females, Alwaziriya Orphanage, St. Hanna Church Orphanage, Children's House, Al Rashad House for Elderly, An Najah House for Girls, The Children House for Girls, Rami Institute for Disabled Children, Al Mansur Institute for Disabled Children, Al Hanan House for Disabled Children.
- **Safe water:** Electricity generator provided for water treatment plant, Baghdad.
- **MH organised capacity building programmes** for Iraqi NGOs in Iraq and Jordan.

Hotspot: **Palestine**

These few lines cannot do justice to the desperate plight of the Palestinian people. The number of Palestinians living below the poverty line has dramatically increased over the past few years. Over 65% of Palestinians now live on less than two dollars per day. The 'Separation Barrier' wall is also causing large-scale destruction of Palestinian homes, farmlands and businesses. In short the suffering of innocent Palestinians seems to be endless...

How your donations helped...

- **Noor Al-Huda School, Jerusalem:** MH provided £20,000 to furnish the school and provide science laboratory equipment.
- **School Bags:** Hundreds of orphans and needy pupils received stationary, school uniforms, notebooks, etc.
- **Emergency Medical Aid** to Al-Wafa Hospital, Gaza.
- **Family Sponsorship:** Needy families sponsored in Hebron and Jerusalem.
- **Water Wells Projects:** In the rural areas of Nablus MH has dug several water wells for agricultural and domestic use.
- **30,000 Olive Trees** have been planted in Nablus, Hebron and Jerusalem over the past year. (See p11.)

Jerusalem: MH funds Noor Al-Huda School

Nablus: Wells for agriculture & domestic use

“They used to call our Kashmir ‘Heaven on Earth’ now life here is upside down... and everyone seems to have forgotten us.”

India: **Kashmir**

The disputed territory of Kashmir has undergone civil unrest since the early nineties. Poor communities living along the militarised border between Indian and Pakistan administered Kashmir (LoC) have often been in the news as victims of shelling, but the world seems to have forgotten the suffering caused to the entire population from persistent

clampdowns and a collapsed economy. MH has been working in Kashmir (on both sides of the border) since 1994. From the setting-up of blood-banks in Kapwara, Baramullah and Rajory to the running of medical clinics along the LoC, numerous other development projects have been started in Kashmir over the past few years.

MH Computer Training Institute for Orphans, Srinagar

Handicraft Centres help support over 100 widows

How your donations helped...

- Orphans & Widows:** Alongside orphan sponsorship, over 100 widows are now supporting their families through MH Handicraft Centres.
- Srinagar:** MH supporting a leprosy hospital.
- Job-Skills:** Over 500 students have already completed IT training with Muslim Hands.
- Emergency Aid:** MH delivered emergency aid to Qazigund Relief Camp in February 2005.

Did You Know?

Muslim Hands spends over **£200,000** in Kashmir every year, primarily on education and job-skills training.

Green Ribbon Week 2005

A BIG thank you to

everyone who supported or got involved with **Green Ribbon Week 2005!** GRW is an annual initiative to increase awareness about the plight of innocent children of war and to raise funds to help suffering children all over the world.

Activities took place around 25th April with many schools and mosques taking part. People young and old, north and south, all did their bit to raise funds for children of war. Thousands more showed their support by wearing a Green Ribbon, which were on sale at over 1,000 outlets across the country.

How GRW is helping...

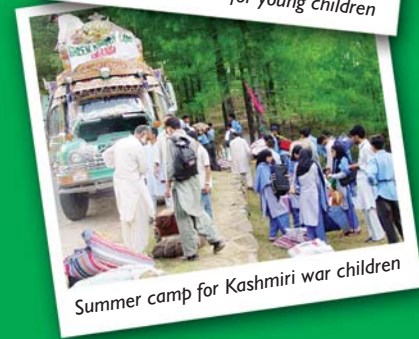

- **Summer camp** with the Scout Association for 120 children living along the bombshelled border of Kashmir.
- **Child amputees** were fitted with artificial limbs in Afghanistan.
- **Darfur children** received vaccinations and medical care.

Children adding fun to fundraising

Darfur: medical clinic for young children

Summer camp for Kashmiri war children

“I and the person who cares for an orphan will enter Paradise together like this (holding his forefinger and middle finger together).”

- Hadith -

“A man is not a true believer if he eats with satisfaction whilst his neighbour goes hungry”

- Hadith -

Orphan Sponsorship

Ten years ago, MH launched our Orphan Sponsorship Scheme. Its simplicity was the root of its success: one donor provides education and welfare to an orphaned child as long as the child remains at school. Orphan workers ensured the orphans received a sound education and kept donors informed of the orphan's progress.

Many of the orphans who passed through the scheme either continued on to further education or training, whilst others went straight into employment.

Ten years on there are over **4600** orphans in **22** of the world's poorest countries going to school because MH donors agree that through the provision of a sound education we can give the poor the opportunity to help themselves out of poverty.

In 2000 MH embarked on a long term school building programme designed to further raise the standard of education received by MH orphans. We have now established over 120 schools from Kosova to Kashmir, Sudan to Sri Lanka. Of course our schools allow poor children who are not orphans to attend through MH Student Sponsorship, but orphans are given priority.

Callers to our office often ask which is the best way of spending their charity, the answer is

‘Sponsor a poor orphan child today’

If you sponsor online at www.muslimhands.org, you can also select the orphan.

PennySaverBox

...make a change

A message on behalf of thousands of poor children to our children...

“A wise person always counts his pennies and every penny counts. Your small change means a lot to the needy.”

Try to save your pennies and help the poor and needy orphans. Share a small portion of your pocket money with your poorer brothers and sisters. Healthy tips: Cut down on sweets, chocolates & fizzy drinks. The pennies you save can go to the poor, simply by putting them in your PennySaverBox.

...and to parents too

It is a well known fact that Muslims are most generous and giving. We should educate our children and teach them Islamic manners and one of the best manners within Islam is that of GIVING. Children learn this from the very early days in their lives.

Please call and order your **FREE Muslim Hands Penny Saver Boxes** for each of your children and watch them save and give to charity.

Did You Know?

You can sponsor poor students, teachers, the disabled and the elderly with MH One-to-One Sponsorship.

Did You Know?

You can build a school classroom for only £3,000 (See p.10.)

Did you know you have a special gift? A gift more than a billion people do not have? A gift you probably didn't even think was a gift?

The fact you are able to read this, means the doors of books and learning are open for you in a way they aren't for many, many others.

At Muslim Hands we believe all people have the right to an education and the same chance for a better future. To achieve this we tackle the education problem from all angles, ranging from overcoming initial obstacles such as illiteracy and a lack of local school provision, to funding students from poor backgrounds and providing vocational training for older people who are beyond school age.

Alhamdulillah, at this very moment there are over 12,000 individuals from the world's poorest countries benefiting from the education you are providing. Many more have completed their education and are now sustaining themselves and their families in a way that would not have been possible without your support. Alia (see below) is a testament to the ability and eagerness young people have, all they need from us is the opportunity.

We want to do even more. We have set ourselves the target of helping even more children receive an education, helping even more people become skilled and helping even more people out of poverty.

Together we can.

MH Sponsored Gifted Student

Alia Shaheen studied at the MH Educational Academy, Muzaffarabad, and then received MH sponsorship for further studies. She is currently a mathematics lecturer at AJK University, Kashmir and will be taking her new post at a top French University in 2006.

The Gambia: Adult literacy classes

Afghanistan: Job Skills Centre

Aceh, Indonesia: School for tsunami victims

Medical Care

Having the services of two medical doctors, a paediatrician and disaster medical specialist, as well as a qualified pharmacist at MH head office, has allowed MH not only to run medical projects such as dispensaries, clinics and ambulances, but to implement some very innovative projects...

Infant Mortality

This year MH launched a campaign for the reduction of child and infant deaths in **Sri Lanka, Sudan, Kashmir, and Pakistan**. The programme is aimed at creating awareness for expectant and new mothers about maintaining a healthy pregnancy and proper care of the newborn. The campaign involves immunisation, screening, treatment and counselling about child-care. In fact, the project has been nominated for the 'UK Medical Innovation Award 2005' by Medical Futures UK.

Kashmir Health Awareness

40 villages from Rajmahal, AJK were mobilised to organize themselves into 40 male Community Based Organisations and 11 Female Development Organisations. Over 100 men and women were then trained in primary health care and first aid skills. Next, these Trained Community Representatives organised community meetings to educate the villagers in primary health issues and First Aid. The results of the programme have been remarkable. In fact the volunteers have now formed a strong network of competently trained medical practitioners able to respond to needs in the Rajmahal area.

Reduction of Infant Mortality Campaign, Sri Lanka

From Refugee to Doctor with MH!

Arif Hussain studied at MH Educational Academy, Muzaffarabad, and after gaining good results received MH sponsorship for further studies. Alhamdulillah he will complete his MBBS this year from Ayub Medical College. He also volunteers at a MH Medical Clinic, Muzaffarabad.

Did You Know?

You can sponsor an orphan for only £20 per month. We believe it's the best way to give orphans a better future

MHIMP

The It's My Project Promise:

All projects will be done in the name of donors
& all donors will receive individual feedback
Your Idea + MH Skills Makes IMP!

IMPs can start from as little as £250 and can go as high as £500,000.
Projects can be done by yourself,
or with your family, friends or colleagues.
**Contact Special Programmes Department
and start planning your project today.**

It's My Project

Sudan Water Aid

Water is precious all over the world, but in Sudan it is a life saving resource. Through Muslim Hands IMP Scheme individual donors have had numerous water reservoirs dug in the Sudan (75,000 litres each). A water tanker (another IMP) is used to replenish water supplies in these reservoirs regularly. Many more are needed.

Oxford and Cambridge Islamic Societies School in Kashmir

Oxford and Cambridge University are normally considered 'friendly' competitors, but their respective Islamic Societies showed the power of unity in Ramadan 2004, when they focused their charity efforts in establishing a school in the remote Leepa Valley in Kashmir, where MH has particular expertise. These ISOCs are two of many that have utilised the MHIMP scheme.

Income Generation Tsunami Widows

Rebuilding livelihoods is of paramount importance in the rehabilitation of tsunami victims. This small loan IMP has helped set-up an income generating scheme for widows in Sri Lanka.

Bustan Afghan School for Girls

Helping the village where their father came from, these IMP donors are renovating and upgrading the local high school for girls. An ambitious project that will cost over £60,000, the family are fundraising through various social events.

Nepal Goat Farm

Radio Ramazan Leeds has helped to set-up a self sufficient programme of employment creation and training in Nepal. Livestock are reared, some sold and others gifted to needy people.

“If a Muslim plants a tree then whatever is eaten from it by the birds and animals is a charity on his part and whatever is stolen or lost is also charity.” -Hadith-

Tree Plantation: Palestine & Bangladesh

In many parts of the world agriculture, and trees in particular, remain an integral part of life and source of livelihood for the community. Recognising this, and the benefit trees continue to give over many years, Muslim Hands has launched our Plant a Tree Scheme. The idea is extremely simple: you pay for a tree or sapling to be planted in your name and Muslim Hands executes the project.

For only £10 you can have an olive tree planted in your

or a loved one's name in Palestine and you'll receive a Certificate of Plantation. Or, for only £20 you can plant 10 tree saplings in Bangladesh. Both make wonderful gifts for Eid and other occasions. Of course, tree planting is also an excellent form of sadaqah jariyah (continuous charity), as you continue to receive reward as long as the tree continues to bring benefit to the community.

Since the launch of 'A Gift for Palestine' in October 2004, MH has planted over **30,000** olive trees in Nablus, Al-Khalil and Jerusalem.

Helping Save the Environment: Indonesia

“Destruction has appeared on land and sea because the hands of men have earned it by their actions. Allah gives them a taste of their deeds in order that they may turn away from wrongdoing”

Quran 30:41

The earth is undergoing rapid destruction as a result of irresponsible human behaviour. Our lack of understanding of the balance (*mizan*) of Allah's (s.w.t.) creation is giving rise to high levels of pollution, destruction of forests and other environmental resources.

Muslims make up at least one fifth of the world's population and can

contribute greatly in changing things for the better, and helping ensure that future generations have a safe and sound environment to live in.

This year MH, with partner organisations including IFEES and WWF, will be running programmes in Aceh and North Sumatra, Indonesia aimed at protecting this beautiful part of the

world from exploitation and destruction. MH will be holding workshops for local *ulema* (scholars), senior government officials and other charities active in the area, looking at the problems of deforestation and river pollution.

The three workshops will be followed up with community mobilisation programmes.

 (note: receipt cannot be issued for bank transfers)

Direct Debit
 You can make regular monthly donations by Direct Debit via telephone, web or filling out a Direct Debit form.

DIRECT DEBIT GUARANTEE (This guarantee should be retained by the payer). This Guarantee is offered by all Banks and Building Societies that take part in the Direct Debit Scheme. The efficiency and security of the scheme is monitored and protected by your own Bank or Building Society. If the amount to be paid or the payment dates change Muslim Hands will notify you 5 working days in advance of your account being debited or as otherwise agreed. If an error is made by Muslim Hands or your Bank or Building Society, you are guaranteed a full and immediate refund from your branch of the amount paid. You can cancel a Direct Debit at any time by writing to your Bank or Building Society. Please also send a copy of the letter to us.

What can you buy with 16p?

A regular gift of as little as £5 a month can go a long way in improving the lives of needy people.

£5 a month is only 16p per day. Hard to imagine what we can buy in today's world with 16p (think about it now...). But with MH aid projects around the world, it can do so much more.

After One Month:

It can buy anti-diarrhoeal treatment for 50 children. Diarrhoea is a major killer in Africa and many Asian countries.

After Two Months:

It can provide a poor orphan child with a school kit, including a bag, uniform and stationary, or pay for the plantation of an olive tree in Palestine.

After Six Months:

It can provide a teacher's salary, for one whole month, helping scores of children to read and write.

After Twelve Months

It can buy a rickshaw for a poor landless labourer in Bangladesh or pay for the training of a poor widow at one of our Skills Centres.

Add a regular donation to your generosity this year, sign a DD form today!
